Navi Mumbai

## EDUCATION

**2024**

**Lokmanya Tilak college of Engineering**

BE in Computer science

**2020**

**Karmaveer Bhaurao Patil, Vashi**

Higher School Certification,  
Maharashtra Board

**2018**

**Modern School, Vashi**

Secondary School Certification,  
Maharashtra Board

## STRENGTHS

- Effective communication skills
- Punctuality
- Dedication
- Adaptability
- Leadership skills

## TECHNICAL SKILLS

- HTML, CSS, JavaScript
- React.js
- Node.js, Express.js
- PostgreSQL
- RESTful APIs
- Git
- Java

## SUMMARY

Enthusiastic Full Stack Web Developer with foundational knowledge in front-end and back-end development.

Skilled in creating dynamic, responsive web applications using modern technologies. Known for problem-solving, continuous learning, and teamwork, with a passion for impactful digital solutions.

## PROJECTS

### Mental Health Detection System

*Aug 2023 - April 2024*

Developed a Mental Health Detection System using HTML, CSS, Python, Flask, and MongoDB. The web application features a user-friendly interface for completing mental health assessments, with Flask handling server-side logic and MongoDB managing user data. This project aims to provide insights and support for mental health awareness.

### Crypto Wallet using Blockchain Technology

*January 2023 - April 2023*

A blockchain wallet is a cryptocurrency wallet that allows users to manage different kinds of cryptocurrencies - for example, Bitcoin or Ethereum.

### Network Traffic Analyzer

*August 2022 - November 2022*

Network traffic analysis is the process of collecting and examining network data to understand and improve the performance of your network.

Network traffic analysis can allow you to identify bottlenecks in your network causing slowdowns or may soon impact quality of service for end users.

### Finger Print Sensor using Arduino

*February 2022 - April 2022*

Fingerprint scanners can be used to secure physical access to locations as well as to devices.

Fingerprint biometrics is a security feature that cannot be forgotten or misplaced like a password or hardware token.
