WORK EXPERIENCE

PHP Developer
Digi Interface

05/2022 - 09/2024   *Malad*

Projects

- **Art1st CMS** - I developed a custom CMS for the Art1st website, enabling efficient data management and customization through a user-friendly admin panel. I integrated the CMS with the frontend, ensuring a seamless and dynamic user experience. https://www.art1st.co.in/
- **Manishramuka CRM** - I contributed to the development of the Manishramuka CRM, designed for CFA course classes, with both admin and user login functionality. I worked on various modules, improving the platform's efficiency for managing class-related operations.
- **WeConnect Care -** I integrated the frontend and Razorpay payment gateway for WeConnect Care, a website offering extended warranty services for appliances and gadgets in India, ensuring smooth user transactions and payment processing. https://www.weconnectcare.co.in/
- **M54** - Developed and integrated a CMS with the frontend for the website https://m54.org/
- **Usvirtualguard** - Developed and integrated a CMS with the frontend for the website https://usvirtualguard.com/ , including multiple admin and user logins, and integrated the NMI payment gateway.
