## Senior Software Developer

---

### Professional Summary

Senior Software Developer with over 4 years of experience at CEDCOSS Technologies, specializing in PHP development and scalable web application architecture. Proficient in MVC frameworks, RESTful APIs, and object-oriented programming, I am skilled in creating optimized server-side logic and enhancing database performance. My background includes designing integration solutions for platforms like Walmart, Etsy, and Newegg, and I bring hands-on expertise with AWS, GitHub, and project management tools such as ClickUp and Jira. Recognized for my analytical abilities, attention to detail, and teamwork, I am committed to delivering effective, high-quality solutions in Agile environments.

### Professional Experience

#### Senior Software Developer

CEDCOSS Technologies | [Lucknow, Uttar Pradesh] | Nov 2020 – Present

- Developed and maintained integration applications for platforms such as Walmart (US, CA & MX), Etsy, Catch, Newegg, reverb, onbuy, wish, and others, focusing on efficient product and order data management, along with ClickUp, GitHub integrations, and AWS experience.
- Built and optimized e-commerce websites, implemented new features, and resolved bugs to enhance performance.
- Designed and improved admin panels to streamline operations and enhance user experience.
- Utilized GitHub for version control, managing branching and merging effectively.
- Collaborated with cross-functional teams in Agile environments, using Jira for project management and issue tracking.
- Created and integrated REST APIs for seamless data exchange between systems.
- Ensured code quality through regular reviews and adherence to best practices in PHP and web development.
