Education

Rajiv Gandhi Proudhyogiki

Vishwavidyalaya

Electronics and Communication
Engineering
2014 - 2018

Core Competencies

- Programming and Design Skills
- Commitment and Consistency
- Analytical Abilities
- Team Collaboration and Leadership
- Meticulous and Multitask Oriented
- Excellent Communication

Experience

Software Engineer 3

Elsevier

(May 2022 - Present)

Projects : Digital Authoring Tools

- **Developed and Maintained Features:** Designed, developed, and maintained core features of the digital authoring platform using Laravel , PHP ,React Js, Aws S3 ,Figma ,PostgreSQL etc.
- **UI/UX to Full-Stack Development:** Led the development of multiple screens for Elsevier's Digital Authoring Tool, covering both front-end and back-end aspects.
- **Adopted Agile Methodologies:** Actively participated in agile development practices, including sprint planning, daily stand-ups, and retrospectives for timely feature delivery.
- **Enhanced User Interface (UI):** Contributed to creating an intuitive and responsive UI, incorporating user feedback to improve usability.
- **Maintained Documentation:** Developed and maintained comprehensive technical documentation and user guides for both development and end-users.
- **Debugged and Troubleshot Issues:** Managed production deployment activities, conducted post-release bug analysis, and implemented fixes.
- **Optimized Platform Performance:** Implemented code optimizations and system enhancements, leading to increased platform efficiency.
- **Managed Deployment and Releases:** Oversaw the deployment process and managed software releases, ensuring smooth transitions and minimal downtime.

Full Stack Web Developer

Cognizant

(Dec 2018 - April 2022)

Projects : Cognizant Automation Center - Enterprise IT Automation

- **Developed Cognizant Automation Center UI:** Led the UI development of the Cognizant Automation Center, transforming UX wireframes into fully functional user interfaces.

Courses

- Front End Development
- Complete Web App Development
- White Belt Security
- Yellow Belt Security
- Green Belt Security
- Python Programming
- Database Technology
- React Js

Awards

- Facilitated internally as the best performer for a quarter.
- Awarded the Cognizant Cheers award multiple times for achieving critical, on-time deliverables.
- Recognized and awarded within the development team for efficient knowledge training and timely goal achievement.
- Played a significant role in securing several patents for the organization.
- Founding member of the inter-departmental tech fest under the banner of the EC Department, Technocrat Institute of Technology.
- Silver medalist in the Under-19 Badminton Doubles Championship at the district level.

Languages

- English
- Hindi (Native)

- **New Product Development and Feature Enhancements:** Developed new products and added functionality to existing software systems, enhancing performance and user satisfaction.
- **Consulted and Supported Teams:** Provided ongoing consultation and support throughout the full life cycle of software product development.
- **Collaborated with Designers and Agile Teams:** Worked closely with designers and Agile development teams to deliver high-quality, interactive web experiences.
- **Agile Development:** Actively participated in the Agile development life cycle, contributing to sprint planning, execution, and review for successful project delivery.
- **Software Development:** Analysed, designed, coded, tested, implemented, and maintained software solutions to meet project requirements.
- **Content Matching and Design:** Ensured alignment with customer specifications through expert design, writing, and editing of content.
- **Produced Clean Code:** Delivered high-quality, clean, and maintainable code for client projects.
- **Complexity Analysis and Estimation:** Assessed application complexity, provided estimations for issue resolution, and coordinated with development and support teams on testing and delivery timelines.
- **Troubleshooting and Support:** Addressed customer-reported issues, provided application support, and handled production deployment activities, including post-release bug analysis and fixes.

Technical Skills

Front-End Technologies:

ReactJS(Library), HTML, CSS, JavaScript, JSON, Redux(Library), JQuery , Ext Js(Framework)

Back-End Technologies:

PHP, Node.js, Laravel, MVC

Databases:

MySQL, PostgreSQL

Version Control:

Git, GitHub , Azure Devops

Unit Testing:

Phpunit, Jest

Development Practices:

Agile Web Development

Containerization and Deployment:

Docker, Amazon S3
