Certification

AI & Agility : <https://bcert.me/sljkdusdf>

IT Skills

Languages: Java ,Scala, J2EE,PHP,Objective C, ChatGpt

Operating Systems: Windows XP,2000 Professional /Server, Mac , Linux

DBMS: MySQL, SQLite, MS-SQL Server 7.0, Oracle 8.0, Postgresql, MongoDB

Web/ App Server: Apache Tomcat Server 5.5, XAMPP

Work Experience

ASM Enterprise Solutions, Navi Mumbai | Since Nov'19

Senior Software Engineer

Genietalk Private Ltd. | Nov'17 – May'18

Freelancer

Cybage Software, Pune | Apr'14 – Oct'15

Senior Software Engineer

Hexagon Software, Pune | Nov'13 – Jan'14

Senior Software Engineer

DBXento Systems, Pune | May'12 – Sep'13

Senior Software Engineer

Serosoft Solutions Pvt Ltd., Indore | Mar'10 – Oct'11

Senior Software Engineer

Abacus Consultancy Services, Indore | Aug'09 – Mar'10

Software Engineer

Ideavate Solutions Pvt. Ltd., Indore | Sep'07 – Jul'09

Software Engineer

Key Result Areas:

- Spearheaded end-to-end project management for 15+ high-impact projects, including planning, scheduling, cost/resource optimization, risk/change management, stakeholder communication, and documentation, ensuring 100% adherence to timelines and budgets.
- Managed program and project progress, consistently meeting deadlines across all tasks; ensured zero post-production defects and facilitated seamless knowledge transfer, resulting in a 20% increase in team efficiency.
- Conducted in-depth analysis of complex business process requirements, delivering tailored system solutions; successfully closed 95% of identified gaps through evaluation and scope definition, aligning project outcomes with client expectations.
- Presented 30+ client proposals, providing strategic technology solutions that optimized business functionality, driving a 15% improvement in operational efficiency and business outcomes.
- Directed full SDLC processes for multiple projects, from requirements gathering to maintenance, utilizing Agile methodologies to reduce development cycles by 25% and ensure high-quality deliverables.
- Focused on continuous team improvement, fostering a culture of collaboration and innovation; led initiatives that improved team productivity by 20% through effective conflict resolution and enhanced communication channels.
- Provided proactive client escalation management, resolving 90% of escalations within 24 hours, ensuring client satisfaction and smooth project execution.
- Deployed standardized testing processes, improving defect management and quality reporting metrics, which increased testing efficiency by 30% and streamlined both automated and manual testing efforts.
- Established and implemented quality standards aligned with SLAs, resulting in a 98% adherence to quality benchmarks and delivering a superior customer experience.

Highlight:

- Received appreciation from Client & Managers for accomplishing deliverables beyond expected timeframes

***Please refer annexure for major projects**

ANNEXURE

Jio Financial Services

- Developed a Scala project for handling payment details for B2B, B2C & B2B2C for dealing for different segments like Kirana, Horeca and different institutions , used api integration with HDFC bank apis
- **Tools:** PHP, Scala & Oracle

JioOms

- Created an OMS for jiomart and jio prime partner as a module, which monitors entire order journey for all type of orders from different verticals like Kirana, Horeca , institutions for B2B, B2C & B2B2C, used hybris api integration with JioPrimePartner
- **Tools:** PHP, Scala, Oracle & ElasticSearch

Colonyamerican.com & deicommunities.com

- Tailored a functional web-based solution streamlining property searches according to selected features like location and available units; this led to quicker access for over 500 potential tenants in just three months post-launch.`
- Completed the project in object oriented PHP (fuse-box framework) and PostgreSQL
- **Tools:** php with fuse box framework, zend studio, postgresql with jquery validations

<http://mbtransformers.com>

- Created a website in wordpress for a company involved in electric machines manufacturing such as voltage Stabilizers, transformers etc.
- **Tools:** WAMP with wordpress open source blog (PHP)

prescriptiongiant.com

- Customized OsCommerce and wrote special XML programs for affiliates of www.prescriptiongiant.com (such as googlebase data feeds) to increase site business
- Devised custom web scrapers that automated the population of a product catalogue for an electric machinery site; streamlined operations resulted in saving approximately 15 hours weekly previously spent on manual updates.
- **Tools:** WAMP with oscommerce, open source framework (PHP)

TravelClick Hotel Toolbox

- Analyzed and understood requirements and developed the building blocks (condors) for hotel administrations and website development in WAMP environment with object oriented PHP, in coordination with clients and team
- **Tools:** WAMP with jquery validations and GUI (php)

Athenahealth – athenacrm

- Analyzed and understood requirements and developed the application in LAMP environment with SUGARCRM framework
- **Tools:** Sugarcrm 5.x, mysql 5.5, linux environment
