SUMMARY: Full Stack Developer with 6+ years of experience in Laravel, Symfony, Node.js, and Vue.js. Proficient in AWS, Cypress, and CI/CD, with a focus on scalable apps, clean code, and performance.

SKILLS

Lauguages: PHP, JavaScript, Typescript, SQL, Html, Css, C/C++, Java

Frameworks: Laravel, Symfony, Node Js, Vue Js, Cypress, Angular, Ionic Capacitor, Cordova

AI Models: GPT 4o, 4o mini, 3.5 turbo, Gemini 2.0, Mystral AI, DeepSeek-V3, DeepSeek-Coder

Technologies and tools: AWS, Lambda, Docker, EC2, Dynamo DB, S3, SQS, CloudWatch, Git, GitHub, Gitlab, Bitbucket, Jira, Express JS, Pinia, Vue Router, MySQL, Tailwind CSS, Bootstrap CSS, jQuery, Smart-dump component methodology, C Panel, Google Cloud, Ionic App Flow

API Integrations: Chat GPT API, Gemini API, Interactive Brokers Trading API, S&P Global Capital IQ and Commodity Insights API, Razorpay Payment Gateway API, Trulioo Verification API

DOMAIN

AI-Powered Applications, Fintech, Stock Trading Platforms, Learning Management Systems (LMS), Restaurant & Food Tech Systems, Project Management Tools, HR Management Systems (HRMS), Society & Housing Management Systems, Automotive Service Management (Car Repair)

WORK EXPERIENCE

Senior Full Stack Developer, Rise up   **Feb 2025 - Present**

- Developed core features of an AI-driven LMS using Vue.js and Symfony in an Agile environment (Jira, Bitbucket, GitLab).
- Implemented adaptive learning paths by matching user skills with training modules, allowing users to skip redundant content.
- Integrated AI models(GPT-4o, Gemini 2.0, Mistral) for automated training, module, and step generation, cutting content creation time by 60%.
- Engineered effective prompts for AI models to generate accurate and relevant learning materials.
- Ensured frontend reliability with Cypress E2E testing and improved deployment workflows via GitLab CI.
- **Technologies**: Vue.js, Symfony, Cypress, GitLab, Bitbucket, GPT-4o, Gemini 2.0, Mistral, Agile

Senior Full Stack Developer, Eucaps   **May 2021 - Jan 2025**

- Led Agile delivery of a complex stock trading platform on time and within budget, automating account opening and error handling to cut setup costs by 60%.
- Developed PWA mobile apps with Capacitor.js (10K+ downloads), automating builds for consistent, reliable releases.
- Optimized APIs, CI/CD pipelines, and database management to streamline workflows and boost efficiency by 25%.
- **Technologies**: AWS (Lambda, S3, SQS), Docker, MySQL, Laravel, Vue.js, Capacitor.js, Ionic Appflow, GitHub Actions.

Director, 36 Central Training and Development   Nov 2019 - Apr 2021

- Led development teams on client projects, including e-commerce platforms, restaurant management systems, and EdTech solutions, ensuring on-time and quality delivery.
- Reduced client operational costs by up to 6,00,000 INR annually through workflow automation and optimized system designs.
- Improved project delivery speed by 30% by implementing Agile methodologies and using Jira Cloud for efficient task management.
- Enhanced security and performance of client applications with optimized APIs, database management, and CI/CD pipelines.
- **Technologies**: Laravel, Vue.js, Angular, MySQL, Firebase, HTML, CSS, JavaScript, Jira Cloud.

Web developer, Softomatic   Jan 2019 – Sep 2019

- Developed and maintained web applications using Laravel, which reduced backend processing time by up to 30% through optimized queries and database management.
- Led development on client projects such as Urban Housing Society Management System, HR Management System, and Car Garage Repair Management System, improving efficiency and saving 25% of client operational costs.
- Optimized user experience by streamlining frontend interfaces with Blade templating, resulting in a 20% increase in user engagement and satisfaction.
- Integrated business processes and features for clients, leading to a 15% improvement in system efficiency and reduced manual errors.
- **Technologies**: Laravel, Blade, PHP, MySQL, jQuery, JavaScript, HTML, CSS, Angular

---

EDUCATION

Master of Computer Applications   **2017 - 2019**

University: Chhattisgarh Swami Vivekanand Technical University, Bhilai, Chhattisgarh, India   **76.33%**

- Specialized in Software Development, Algorithms, and System Analysis.
- Gained in-depth knowledge of Object-Oriented Programming (OOP), database systems (SQL/MySQL), and modern web technologies.
- Completed projects focused on scalable web applications and backend systems using PHP, Java, and frameworks.
- Emphasized analytical thinking and problem-solving through coursework in data structures, operating systems, and software engineering.

Bachelor of Computer Applications   **2014 - 2017**

University: Pandit Ravi Shankar Shukla University, Raipur, Chhattisgarh, India   **64.80%**

- Built a solid foundation in Computer Science, covering programming languages (C, C++, Java), database management, and network fundamentals.
- Studied key subjects such as Software Engineering, Web Design, and Data Structures.
- Actively participated in team-based software projects, improving communication and collaborative development skills.

PROJECT WORK

Eucaps
Domain – Fintech, Stock Market Trading Applications, SME Investment Platforms
Live – eucaps.com

- Developed Live Stock Price Trading Systems for European retail investors with a centralized onboarding and Financial Portfolio lookups.
- Enabled real-time instrument price updates, stock order tracking, and economical analytics pf companies to make better decision for investors.

Bharplate
Domain – Restaurant Management, Digital Menu Platform, Order Tracking & Analytics

- Developed a digital menu system for restaurants with a centralized dashboard to manage dine-in operations.
- Enabled real-time menu updates, order tracking, and analytics to reduce the overhead of reprinting and improve sales tracking.

Custom Made Project Management System
Domain – Agile Task & Sprint Management, Slack Integrations, Kanban Workflows
Repo – github.com/gayali/project-frontend, github.com/gayali/project-backend

- Designed and developed a full-featured project management tool supporting Agile methodology and Kanban boards.
- Implemented role-based access control, task management, and integrated Slack for team communication.
- Streamlined team productivity through visual workflows and real-time updates.

Home Remedies
Domain – Ayurveda-Based Wellness Platform, Content-driven Healthcare Guidance
Live – 36central.com/homeremedies

- Created a web portal offering Ayurvedic remedies, food health benefits, and lifestyle tips.
- Categorized remedies for common ailments with natural solutions backed by traditional practices.

Ayurvedic Unit Converter
Domain – Ayurveda & Vedic Science Tools, Measurement Conversion
Live – 36central.com/converter

- Created a specialized web app for converting traditional Ayurvedic units of measurement.
- Integrated search and conversion tools with historical unit references for researchers and practitioners.

CERTIFICATIONS

- Certification of Expertise in Core Java, From Chinmaya institute, Bhilai on 2017
- Hackathon Participation Certificate, from NIT Raipur on 2018

LANGUAGES

- English, Hindi, Bengali
